

Welcome to Student Life!

The Department of Student Life is located in the Student Services Building on North Campus.

Student Life provides a variety of services to MSU students, including job opportunities, resources for student leaders, and much more. Stop in and see what Student Life has to offer!

The Department of Student Life encourages all student groups to make every effort to program events and activities in environments that are accessible and/or accommodating to all. Campus activities of interest to students and student groups are included in the MSU Public Events Calendar, updated weekly or check out links to other campus and community events.

Want to become a registered student organization? Read “Procedures for Registering Your Student Organization” below.
